Email: pushkarthakur2503@gmail.com
Mobile: +91-8077482653

Skills

Languages:	Python, Java, C++, C
Machine Learning:	Scikit-learn, TensorFlow, PyTorch, XGBoost, Pandas, NumPy
Frameworks:	Flask, Streamlit
Databases:	MySQL, MongoDB
Tools/Platforms:	Git, GitHub, Jupyter Notebook, Power BI, Excel
Core CS:	Data Structures, Algorithms, OOP, Problem Solving
Soft Skills:	Problem-Solving Skills, Team Player, Project Management, Adaptability

Projects

Telecom Churn Prediction System — Aug' 25

- Drove a full end-to-end machine learning workflow to predict customer churn, uncovering behavioral patterns and key churn triggers.
- Tech: Python, Pandas, NumPy, Scikit-learn, XGBoost, Random Forest, Matplotlib, Seaborn, Streamlit
- Achieved high-performance churn prediction with improved accuracy and deployed an interactive Streamlit app enabling real-time churn insights.

Crude Oil & Petroleum Products Import–Export Dashboard — Apr' 25

- Built an interactive Excel dashboard to analyze India's crude oil and petroleum trade flow, highlighting trends across countries and product categories.
- Tech: Power BI, Microsoft Excel, Pivot Tables, Pivot Charts, Slicers, Data Cleaning
- Delivered a dynamic analytical tool that streamlined decision-making and cut manual analysis time significantly.

Commodity-Wise Exports of India — Apr' 25

- Analyzed India's export performance across major commodity groups using Python-based data analysis and visualization.
- Tech: Python, Pandas, NumPy, Matplotlib, Seaborn, Jupyter Notebook
- Produced clear, data-driven insights and created interactive visual summaries improving understanding of commodity wise export distributions.

Training

Machine Learning Made Easy: From Basics to AI Applications - Lovely Professional University

- Mastered the full data-to-model pipeline — from cleaning and wrangling messy datasets to performing deep exploratory data analysis, building robust machine learning models, and tuning them for sharp, reliable performance.
- Explored advanced AI territories — NLP fundamentals, text processing, model deployment basics, and hands-on experience with real-world applications that stitch together data, algorithms, and intuition into practical intelligence.

Certificates

Foundational Level in Programming and Data Science (IIT Madras BS Degree)	Dec' 25
Machine Learning Made Easy (Centre for Professional Development LPU)	Jul' 25
C Programming Fundamentals (CSE Pathshala)	Mar' 23

EXTRACURRICULAR ACTIVITIES

Attended "The Secure Way" an AWS workshop	Nov' 24
Participated in "HeckEthix" workshop	Feb' 24

Education

Diploma in Programming — Jan' 25 - Present
Indian Institute of Technology Madras

Diploma in Data Science — Jan' 25 - Present
Indian Institute of Technology Madras

Lovely Professional University — Phagwara, Punjab
Bachelor of Technology - Computer Science and Engineering; CGPA: 6.8 — Aug' 23 - Present

Gayatri Vidyapeeth — Haridwar, Uttarakhand
Intermediate; Percentage: 70% — Apr' 20 – Mar' 22

Gayatri Vidyapeeth — Haridwar, Uttarakhand
Matriculation; Percentage: 88% — Apr' 19 – Mar' 20
